

Super Lube Oil, Grease, and Syncolon PTFE, Features and Benefits

Features:

- Synthetic with SYNCOLON® (PTFE)
- Non-Toxic, Odorless
- USDA H-1 Rating: for use in federally inspected meat and poultry plants
- Dielectric properties
- Packaging in drums, kegs, pails, tubs, jars, cartridges, tubes, aerosols, and packets

Benefits:

- Water & Saltwater resistant
- More reliable lubrication, outlasts petroleum based greases and oils
- Remains free flowing in freezing temperatures
- Will not stain or harm wood, rubber, leather, plastics, fabrics, or paint
- Won't drip, run or evaporate
- Repels dirt, dust, grit and grime
- Prevents rust and corrosion while reducing friction
- Long Lasting
- Compatible with conventional lubricants
- Reduces friction and wear
- Reduces Maintenance

Advantages:

Petroleum-based Greases & Oils	Super Lube Multi-Purpose Synthetic Greases & Oils
Contains impurities which cause unpredictable viscosity changes and adversely affect wear protection.	Synthetic properties provide predictable viscosity and reliable film strength to prevent contact between moving parts. SYNCOLON® (PTFE) aids lubricity.
Poor oxidation and thermal stability. Form gummy deposits and carbon at elevated temperatures.	Excellent thermal and oxidation stability. Runs clean at continuous temperatures to 450°F and 500°F intermittently.
Greases: Harden at freezing temperatures. Oils: Contain waxes that "freeze out" at cold temperatures.	Contains no wax and remains free flowing at low temperatures. <ul style="list-style-type: none">○ Grease: -45°F (-42.78°C)○ Oil with SYNCOLON® (PTFE) - 45°F (-42.78°C)○ Lightweight oil: -40°F (-40°C)

Applications:

Household:

Door handles, locks and hinges, casters, door tracks, garage door openers, drive chains, gear drives and linkages, nuts and bolts, sewing machines, kitchen cabinets, vacuum cleaners, fans, snowblowers, lawn mowers and garden tools.

Recreational:

Fishing and marine equipment, snowmobiles, sleds, bicycle chains, derailleurs, free-wheel clusters, cables, brake handles, calipers, rifles, shotguns, hand guns, ski bindings, zippers, pool gear, beach gear, outboard motors, outriggers, downriggers... winches and pulleys.

Automotive:

Hubs, axles, seat regulators, tracks, pivot points, shackles, wiper motors, antennas, switches, battery terminals...hood and trunk springs, hinges, and window regulators.

Tools & Machinery:

Shackles, winches, motor lifts, spindles, lathes, drill presses, table saws, manual and power hand tools.
